SECTION 2. All structures, poles and wires erected hereunder shall be placed in alleys whenever practicable so to do and shall be so placed, whether on streets, alleys, avenues or other public places, as not to interfere unnecessarily with travel on such streets, alleys, avenues or other public places and shall be erected under the supervision of the Rochelle Municipal Utility or such other agent as the City Council of the Municipality may from time to time designate. All structures and poles erected under this ordinance shall be not less than thirty (30) feet in height and shall be so located as not to injure unnecessarily any drains, sewers, catch basins, water pipes, pavements, or other public improvements, but if any drain sewer, catch basin, water pipe, pavement or other like public improvement is injured by such location, the Grantee shall forthwith repair the damage caused by such injury to the satisfaction of the Municipality’s committee on streets and alleys or such other duly authorized agent as the Municipality may designate, and if the Grantee defaults on its obligation to repair any such damage, the Municipality may repair such damage and charge the cost of labor and material therefor to, and collect the same from, the Grantee, provided that all structures, poles and wires installed as of the Closing Date and acquired by the Grantee pursuant to the Asset Purchase Agreement shall be deemed to be in compliance with this Section 2.

All abandoned structures and poles shall be removed as soon as the use thereof is discontinued. To the extent practicable, all structures and poles shall be set in straight lines, and all vertical clearances of wires, conductors and cables shall be in compliance with the National Electrical Safety Code published by the Institute of Electrical and Electronics Engineers, Inc.

ComEd’s vegetation management program complies with North American Electric Reliability Corporation (NERC) and Federal Energy Regulatory Commission (FERC) standards which require specific vegetation clearance distances between vegetation and conductors.

The failure of the Grantee to so accept the Franchise within such thirty-day period shall be deemed a rejection of the Franchise by the Grantee, and the rights and privileges herein granted shall thereupon terminate and cease to be of any force or effect, unless prior to the expiration of such thirty-day period, such period shall be extended by the Municipality by ordinance of its City Council duly passed for that purpose.
